SUMMARY

Full Stack Developer with 4+ years building production systems for industrial and agricultural operations: hazardous materials, GPS fleet monitoring and industrial safety. I take products end to end (design, front end, back end, database and deployment) with React, Next.js, Node.js, ASP.NET Core, PostgreSQL and SQL Server. 3+ years of remote work with autonomy and async communication.

EXPERIENCE

Systems & Operations Supervisor — Global Plus · *Ilo, Peru · On-site* **Dec 2025 – Present**

- Designed and built a multi-role industrial safety system (supervisor, operator, auditor) with a protocol library, digital inspections, incident logging with photos and certification tracking.
- Shipped it as an offline-capable PWA for warehouse zones without WiFi, deployed on-premise with Docker.
- Compliance audits went from days to minutes, with full traceability by role and timestamp.
- Supervise technology systems and operations at a hazardous materials storage company.

Stack: Next.js · TypeScript · PostgreSQL · Prisma · Docker · PWA

Freelance Full Stack Developer — Self-employed · *Remote* **Mar 2025 – Nov 2025**

- Built custom web applications for clients, from specification to deployment.
- Built gre-materiales, a PWA to look up the 2,661 materials in the ERG 2024 guide: offline search under 100 ms with IndexedDB and camera OCR of hazard labels that cuts each lookup from 30–60 s to under 3 s.

Stack: Next.js · TypeScript · PostgreSQL · Tesseract.js · PWA

Full Stack Developer — Agrosoft S.A.C. · *Remote* **Dec 2021 – Feb 2025**

- Built a real-time agricultural fleet monitoring system with Mapbox: route history, live position, work zones and automatic alerts for stops and abnormal fuel consumption.
- Developed the .NET C# back end that processes high-frequency GPS telemetry, and reports by farm, machine and period for 50+ owners, moving them from weekly to real time.
- Designed analytics reports over large data volumes in SQL Server with stored procedures and date-range query optimization.

Stack: React · Node.js · ASP.NET Core · .NET C# · SQL Server · Mapbox

PROJECTS

rindex — Academic assessment platform with 3 role levels, timed and randomized exams, weighted section scoring and performance analytics.
Stack: Next.js · TypeScript · Prisma · PostgreSQL · NextAuth

SKILLS

Languages	TypeScript, JavaScript, C#, SQL
Front end	React, Next.js, TailwindCSS, PWA, Mapbox GL, Recharts
Back end	Node.js, Express, ASP.NET Core, Entity Framework Core, REST APIs, JWT
Data	PostgreSQL, SQL Server, SQLite, Prisma, Drizzle
Tools	Docker, Git, GitHub, Vercel, Tesseract.js (OCR)

EDUCATION · LANGUAGES

Bachelor's Degree in Systems Engineering — Universidad José Carlos Mariátegui · Ilo, Peru **2016 – 2021**
Spanish: native · English: intermediate (B1)
