PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience delivering high-impact web and desktop systems across the full development lifecycle — from architecture to production. Proficient in React, Next.js, TypeScript, Node.js, ASP.NET Core, and PostgreSQL. Proven 3+ year remote work track record at Agrosoft, with strong autonomy, async communication, and consistent delivery. Currently leading platform development at Global Plus building industrial safety systems with Next.js and Docker.

PROFESSIONAL EXPERIENCE

Systems & Operations Supervisor

Dec 2025 – Present

Global Plus — Ilo, Perú (On-site)

- Architected and developed an industrial safety platform for risk management, emergency protocol handling, and regulatory traceability.
- Led technology systems supervision for a hazardous materials storage company, ensuring operational continuity and compliance.
- Automated key storage workflows with Next.js and PostgreSQL, significantly reducing manual processing time.

Technologies: Next.js · TypeScript · PostgreSQL · Docker · PWA · Prisma

Full Stack Developer

Dec 2021 – Feb 2025

Agrosoft S.A.C. — Remote

- Built agricultural management systems with real-time geospatial visualization, integrating Mapbox for machinery route monitoring across large-scale farm operations.
- Developed a custom analytics report engine for processing large volumes of operational data, accelerating management decision-making.
- Implemented real-time GPS tracking with speed alerts, route history, and per-work-order parameter monitoring.

Technologies: React · Node.js · ASP.NET Core · .NET C# · SQL Server · Mapbox · REST APIs

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, Angular

Backend: Node.js, ASP.NET Core, Express, REST APIs

Databases: PostgreSQL, SQL Server, SQLite, Prisma ORM, Drizzle ORM

DevOps: Docker, Git, GitHub, Vercel, PWA, pnpm

UI/Tools: shadcn/ui, Recharts, Mapbox, Zustand, GSAP, Tesseract.js

Desktop: .NET C#, WinForms

FEATURED PROJECTS

gre-materiales — PWA for querying 2,661 hazardous materials (GRE 2024). Real-time search, ADR OCR scanner, offline IndexedDB, multi-tenant panel.

Stack: Next.js 16 · TypeScript · PostgreSQL · Prisma · Tesseract.js · Docker · PWA

rindex — Academic evaluation platform: 3-role access, timed randomized exams, performance analytics dashboard, Docker deployment.

Stack: Next.js 14 · TypeScript · PostgreSQL · Prisma · NextAuth · Recharts · Docker

agrosoft-gis — Agricultural GIS system with real-time GPS route mapping, machinery speed monitoring, and operational parameter tracking.

Stack: React · Node.js · SQL Server · ASP.NET Core · Mapbox

EDUCATION

B.S. Systems Engineering — Universidad José Carlos Mariátegui, Ilo, Perú

2016 – 2021

Specialization in web development with .NET & JavaScript. Strong foundation in algorithms, data structures, relational databases, and software architecture.
